

The Curator of Historical Collections at Upstate Medical University, Eric v.d. Luft, Ph.D., has written *SUNY Upstate Medical University: A Pictorial History* (ISBN 1-933237-34-1, OCLC 60708583).

The history of medicine in Central New York has national and international as well as local and regional importance. Elizabeth

Blackwell, the world's first woman physician to earn her M.D. by completing the regular course of study at an accredited medical school, received that degree in Central New York. Alumni and faculty of Upstate Medical University and its predecessor institutions have achieved greatness that has enriched medicine and society around the world since 1834. This book tells their stories.

*SUNY Upstate Medical University: A Pictorial History* is a sturdy paperback, 9½ by 6½ inches, viii + 184 pages, copiously illustrated with photos, drawings, and documents from the Upstate Archives and other sources in Upstate's Special Collections Vault. Loaded with facts, fully indexed, and handsomely designed, it will be an accurate, valuable, and easy to use reference tool for the history of Geneva Medical College, Syracuse University College of Medicine, and Upstate Medical University for years to come.

Copies retail for \$18.95 each and may be ordered directly from the publisher: Gegensatz Press, 108 Deborah Lane, North Syracuse, NY 13212 <[www.gegensatzpress.com](http://www.gegensatzpress.com)> (check payable to "Gegensatz Press").
